

BIO TECH NEW ZEALAND

Our aim is to raise awareness, improve the understanding and acceptance of biotechnology enabling our nation to embrace the best opportunities biotech offers to us daily, helping us live better, healthier and more productive lives.

OUR GOALS

Representation of the sector by a central organisation.

Creating scale for the sector by having one voice.

Creating opportunities to network and engage with other BioTechNZ and TechAlliance members.

Identify opportunities for the sector as they arise and championing them.

Being informed of what is happening in the biotech sector here in New Zealand and around the world.

IN 12 MONTHS WE HAVE:

6

submissions made to regional councils and government.

9

networking events and webinars around New Zealand.

26

collaborative effort to showcase 26 companies at BIO2020, Philadelphia

65

a steady increase in BioTechNZ memberships.

In 2020 BioTechNZ will:

- Publish the 'Biotech Market Insights Report-Innovating for a sustainable future' providing an overview, opportunities and recommendations for the New Zealand biotech sector.
- Run member connect events around the country.
- Champion New Zealand biotech in the media.
- Engage with local and central government to champion for Biotech strategy.
- Host MedCan 2020 New Zealand's first medicinal cannabis summit to explore the opportunities that this new sector offers.
